## JOINT COMMITTEE ON FINANCE

### MEMORANDUM

To: Members  
Joint Committee on Finance

From: Senator Mark Miller  
Representative Mark Pocan

Date: January 28, 2010

Re: Department of Health Services SFY 2009 Report on Relocations and  
Diversions from Institutions

Attached is a report on SFY 2009 relocations and diversions from institutions) from the Department of Health Services, pursuant to s. 51.06(8), Stats.

This report is being provided for your information only. No action by the Committee is required. Please feel free to contact us if you have any questions.

State of Wisconsin  
Department of Health Services

Jim Doyle, Governor  
Karen E. Timberlake, Secretary

RECEIVED  
JAN 28 2010  
BY: St. Finian's

January 29, 2010

The Honorable Mark Miller, Co-Chair  
Joint Finance Committee  
Room 317 East, State Capitol  
Madison, WI 53702

The Honorable Mark Pocan, Co-Chair  
Joint Finance Committee  
Room 309 East, State Capitol  
Madison, WI 53702

Dear Senator Miller and Representative Pocan:

In accordance with Section 51.06 (8), Wisconsin Statutes, enclosed is a copy of the report on people relocated and diverted from nursing homes, intermediate care facilities for the mentally retarded (ICFs-MR), and State Centers for the Developmentally Disabled in state fiscal year (SFY) 2009. This report provides information related to four programs, the ICF-MR Restructuring Initiative, Relocations from the State Centers for the Developmentally Disabled, the Community Relocation Initiative, and the Nursing Home Diversion Initiative.

The Department's relocation and diversion programs have been highly successful, providing the opportunity in SFY 09 for 817 elderly individuals and people with physical and developmental disabilities to live in community based settings who otherwise would have resided in ICFs-MR and nursing facilities. Since FY 2006, approximately 3,166 elders and people with physical and developmental disabilities have successfully relocated from institutional settings and an additional 688 individuals were diverted from admission to a nursing home through the Department's programs. The quality of life for these 3,854 individuals has been enhanced through the opportunity to live in the community and be near family and friends and more fully involved in community activities.

Highlights of the relocation and diversion initiatives include:

- 654 people with developmental disabilities, many of whom resided in institutions for decades, moved to the community and participated in community activities that were not available to them when they resided in institutions.
- 1,710 frail elders who resided in nursing facilities chose to live in the community near their families and friends. Prior to this initiative, these people would have been on a waiting list for home and community-based care, and few would have had the opportunity to return to the community.

- 802 people with physical disabilities chose to live in the community where they were able to access community activities, rather than live in nursing facilities.
- People with developmental disabilities have been served in the community at a cost that is within the institutional budget for this population.
- Frail elders and people with physical disabilities are being served in the community at a cost below that of institutional care, resulting in a level of savings under the Medical Assistance Program in SFY 2009 of \$2.6 million for the people relocated during the year.
- 472 elders and 216 people with physical disabilities, who were determined to be at imminent risk of having to move to a nursing facility, were able to remain in community-based settings because diversion funding was available.

I hope you find the enclosed report useful. Please contact Susan Crowley, Administrator of the Division of Long Term Care, at 608-266-0554 if you have any questions.

Sincerely,

Karen E. Timberlake  
Secretary

# **SFY 2009 REPORT on RELOCATIONS and DIVERSIONS from INSTITUTIONS**

As required by s. 51.06 (8)

## **Executive Summary**

Through three programs, the Department provides elders and people with physical and developmental disabilities residing in nursing facilities and Intermediate Care Facilities for the Mentally Retarded (ICFs-MR) the opportunity to relocate to community-based settings. Under another program, the Department provides support to a limited number of individuals who are at imminent risk of entering a nursing home to be diverted from nursing home admission and remain in community settings.

The Department's relocation and diversion programs have been highly successful, providing the opportunity in State Fiscal Year (SFY) 2009 for 817 elderly individuals and people with physical and developmental disabilities to live in community settings, closer to family and friends and community activities. As shown in the summary table below, 513 or almost 63%, of all relocations and diversions were frail elders; 250 or 30%, were persons with physical disabilities; 54 or over 6.5% were individuals with developmental disabilities.

<b>Community Relocations and Diversions in SFY 2009</b>				
	Persons with Developmental Disabilities (DD)	Frail Elders	Persons with Physical Disabilities (PD)	Total
Relocations	54	379	188	621
Nursing Home Diversions	n/a	134	62	196
<b>Total</b>	<b>54</b>	<b>513</b>	<b>250</b>	<b>817</b>
% of Total	7%	63%	30%	

Since SFY 2006, 3,166 elders and people with physical and developmental disabilities have successfully relocated from institutional settings and an additional 688 individuals were diverted from admission to a nursing home through the Department's programs. The quality of life for these 3,854 individuals has been enhanced through the opportunity to live in the community and be near family and friends and more fully engaged in community activities. The experience of the past four years is summarized in the table below.

<b>Community Relocations and Diversions</b>								
	Persons with DD		Frail Elders		Persons with PD		Total	
SFY	Relocations	Diversions	Relocations	Diversions	Relocations	Diversions	Relocations	Diversions
2006	372		409	98	152	47	933	145
2007	176		484	107	240	57	900	164
2008	52		438	133	222	50	712	183
2009	54		379	134	188	62	621	196
<b>Total</b>	<b>654</b>		<b>1,710</b>	<b>472</b>	<b>802</b>	<b>216</b>	<b>3,166</b>	<b>688</b>
<b>GRAND TOTAL</b>							<b>3,854</b>	

As shown in the table, highlights of the relocation and diversions initiatives over the past four years (SFY 2006 – SFY 2009) include:

- 654 people with developmental disabilities, many of whom resided in institutions for decades, moved to the community and participated in community activities that were not available to them when they resided in institutions.
- 1,710 frail elders who resided in nursing facilities chose to live in the community near their families and friends. Prior to this initiative, these people would have been on a waiting list for home and community-based care, and few would have had the opportunity to return to the community.
- 802 people with physical disabilities chose to live in the community where they were able to access community activities, rather than live in nursing facilities.
- People with developmental disabilities have been served in the community at a cost that is within the institutional budget for this population.
- Frail elders and people with physical disabilities are being served in the community at a cost below that of institutional care, resulting in a level of savings under the Medical Assistance Program in SFY 2009 of \$2.6 million for the people relocated during the year.
- 472 elders and 216 people with physical disabilities, who were determined to be at imminent risk of having to move to a nursing facility, were able to remain in community-based settings because diversion funding was made available.

In January 2007 the Department was awarded a federal “Money Follows the Person” (MFP) Medicaid grant to support rebalancing of the long-term care system through further relocations from institutions to the community. Starting October 2007 and continuing to October 2011, the federal government will pay an enhanced matching rate higher than the standard Medicaid matching rate for the costs of certain relocated individuals during their first year in the community. The Money Follows the Person federal grant will help sustain the momentum for Wisconsin’s relocation initiatives.

## **Background**

### **Relocation Initiatives**

The Department provides elders and people with physical and developmental disabilities residing in nursing facilities and ICFs-MR the opportunity to relocate to community-based living arrangements under the following three programs:

- ICF-MR Restructuring Initiative
- Community Integration Program 1A
- Community Relocation Initiative

#### ***ICF-MR Restructuring Initiative***

The ICF-MR Restructuring Initiative serves persons with developmental disabilities receiving active treatment in a non-state-owned Intermediate Care Facility for the Mentally Retarded (ICF-MR) or a non-state-owned nursing facility. (Relocations from the three State Centers for the Developmentally Disabled are part of the Community Integration Program 1A described below.) The initiative was authorized in the 2003-05 biennial budget bill and became effective on January 1, 2005. Under the initiative, counties are required to prepare a community plan for every person residing in an ICF-MR and for every person seeking admission to an ICF-MR. The plan must be submitted to the court and the court must consider the plan, along with other information presented to the court. If the court determines that the community is the most integrated setting appropriate to the needs of the individual, the court must order the person to be served in the community. If the person with a developmental disability was a resident of an ICF-MR or a nursing facility, the initiative allows money that was previously used to fund his/her institutional care to follow the person into the community to fund community-based care. Funding can also be used under this initiative for community placements for people relocated from facilities that are closing or downsizing. Under this initiative, the entire cost of the person's care plan is funded by the state. Therefore, no county tax levy funding has been required to fund these relocations.

In SFY 2009, a total of 37 individuals with developmental disabilities relocated into the community from ICFs-MR and nursing facilities under this initiative. In their new community settings, these individuals had their care needs fully met and participated in community activities that were not available to them when they resided in institutions.

As a result of the ICF-MR Restructuring Initiative and other factors the long term care system for individuals with developmental disabilities has significantly rebalanced. Since the start of this initiative in January 2005 through June 2009, a total of 653 individuals transitioned to community settings. As of December 2008, only 437 individuals, less than 35 percent of the population in ICFs-MR other than the State Centers at the start of the initiative, are residing in ICFs-MR other than the State Centers. Fifteen ICFs-MR, accounting for 50 percent of all ICFs-MR other than the State Centers, closed over the course of the initiative. Two ICFs-MR were in the process of closing during SFY 2009, and completed their closures in late December 2009/early January 2010.

Relocations under the ICF-MR Restructuring (effective January 2005)	
SFY05	94
SFY06	340
SFY07	143
SFY08	39
SFY09	37
TOTAL	653

### ***Community Integration Program (CIP) 1A***

The Community Integration Program 1A supports relocations of individuals with developmental disabilities from the three State Centers for the Developmentally Disabled to community settings. The CIP 1A program began in 1981. During SFY 2009, the state provided up to \$325/day for an individual's community costs under the CIP 1A program. As established in the 09-11 biennial budget, effective SFY 2010 the Department adopted a universal budgeting methodology that eliminates this upper limit on daily costs and provides the full funding needed in the community for each relocated resident. In SFY 2009, 17 people relocated from long term care programs in the State Centers to the community.

In February 2009, Governor Doyle announced a restructuring initiative for Southern Wisconsin Center (SWC). The 2009-2011 biennial budget assumes that 70 long-term care residents from SWC will relocate from over the 09-11 biennium. All relocations under the SWC Initiative are voluntary and planning proceeds in an individualized basis to reflect the person's unique needs and preferences.

### ***Community Relocation Initiative***

The Community Relocation initiative provides elders and persons with physical disabilities residing in nursing homes the opportunity to relocate to community settings. People being cared for in nursing homes have a choice to remain in their current setting, or move to the community, if their care needs can be met at home, in an apartment or in an assisted living setting. The funding being used for an individual's institutional care "follows" the person into the community to be used in the home and community-based waiver. The Community Relocation Initiative was authorized in the 05-07 biennial budget bill and began in August 2006. In SFY 2009, a total of 564 people relocated from nursing homes under the Community Relocation Initiative. Of the 564 total, 379 were elders and 188 were people with physical disabilities. These individuals chose to live in the community where they could be closer to family and friends and more fully access community activities.

Individuals of all ages chose to relocate to community settings under the Community Relocation Initiative, as shown in the chart below. It is particularly striking that 146, or over one-quarter, of the individuals who chose to relocate were age 85 or older. The youngest person to relocate was age 19 and the oldest was age 99.

<b>Age of Individuals Relocated under the Community Relocation Initiative: SFY 2009</b>						
18-49	50-64	65-74	75-84	85-99	>99	Total
56	132	100	133	146	0	567

Individuals with both relatively short-term and long-term stays chose to relocate, as shown in the chart below. Of the people relocated, 382 or approximately 67% had been in the nursing home more than 100 days; 258 or approximately 45% for six months or more, and 113 or more than 19% relocated after having been in the nursing home for more than one year. Fifteen individuals were in a nursing home for 3 years or more and the longest pre-relocation stay was over 11 years.

<b>Length of Time in Nursing Home Prior to Relocation: SFY 2009</b>				
≤100 days	101-179 days	6 mo-1 year	> 1 year	Total
185	124	145	113	567

## **Diversions**

### ***Nursing Home Diversion Program***

The Nursing Home Diversion Program provides support to a limited number of individuals who are at imminent risk of entering a nursing home to be diverted from nursing home admission and remain in community settings. The program was authorized in 2005 Wisconsin Act 355 and began in April 2006. Participants in this program are served under the Community Integration Program II (CIP II) Medicaid home and community-based waiver. To be eligible for these diversion funds, a person is required to meet certain risk criteria as defined by the Department in addition to meeting the functional and financial eligibility criteria for CIP II. The statute authorizes the Department to provide an enhanced CIP II rate for up to 150 individuals who are diverted from imminent entry into a nursing home and to provide diversion opportunities for additional individuals, subject to the concurrence of the legislature. To date, funding for 600 individuals has been authorized by the Legislature and contracted out to counties for individuals who meet the diversion criteria. This funding is reallocated to new individuals as a result of attrition.

To be eligible for diversion funding, an individual must meet all of the following criteria:

- Belong to a target group served by CIP II (elderly age 65 or older and/or have a physical disability)
- Be functionally and financially eligible for the CIP II program;
- Reside or intend to reside in a community setting that is eligible for CIP II;
- Meet high risk criteria for imminent entry into a nursing home;
- The costs of the person's Medicaid funded community care plan must be no greater than the Medicaid costs the person would have incurred in the nursing home. The care must be cost-neutral.

As a part of the diversion initiative, the Department was required to develop and utilize criteria to determine who is at imminent risk of entry into a nursing home. In developing the criteria, the Department reviewed national studies, analyzed Wisconsin data and consulted with county long-term support coordinators and staff. Factors that are considered in the criteria include:

- Meeting an intensive skilled nursing (ISN) level of care;
- Facing an imminent loss of current living arrangement;
- Having a fragile or insufficient informal caregiver arrangement;
- Having a terminal illness;
- Having multiple other factors that are associated with nursing home entry.

Under the Nursing Home Diversion program in SFY 2009, a total of 196 individuals were diverted from nursing home admission and remained in community-based settings, staying close to family and friends and involved in the community. This included 150 new diversion slots approved by the Joint Committee on Finance in January 2009 and 46 slots that became available through attrition. Of the total, 134 were elders and 62 were individuals with physical disabilities. The diversion opportunities were utilized in 39 counties. (The number of counties operating CIP II and therefore eligible for diversion slots decreases each year due to the expansion of Family Care.)

Individuals of all ages benefited from the Nursing Home Diversion program, as shown in the chart below. Significantly, 70, or more than one-third, of the individuals diverted from nursing homes were age 85 or older. The youngest person diverted in SFY 2009 was 19, and three centenarians were able to remain in a community-based setting due to diversion funding.

<b>Age of Individuals Relocated under the Nursing Home Diversion Initiative: SFY 2009</b>						
18-49	50-64	65-74	75-84	85-99	>99	Total
24	38	24	40	67	3	196

### **Nature of Living Arrangement**

The following table shows the living arrangement for individuals relocated in SFY 2009. Elderly individuals primarily relocate to Community Based Residential Facilities (CBRF); this setting accounts for 199 or over half of all elderly clients. Another 121 or almost one third of elderly relocated individuals moved into a home or apartment, either alone or with family.

Individuals with physical disabilities primarily relocate to a home or apartment; 103 or 55% of individuals with physical disabilities successfully relocated to their own home or apartment. Another 47 or 25% of individuals with physical disabilities relocated to CBRFs.

Individuals with developmental disabilities primarily relocate to Adult Family Homes (AFHs); 27 or one-half of individuals with developmental disabilities utilized this setting. Twenty-one, almost 39%, relocated to CBRFs. Only 4 moved to a home or apartment. Overall, 228 or about 37% of all individuals relocated to a home or apartment.

<b>Living Arrangement for Individuals Relocated in SFY 2009</b>				
	Elderly	Persons with PD	Persons with DD	Total
Home or Apartment	121	103	4	228
Adult Family Home	17	26	27	70
Community-Based Residential Facility	199	47	21	267
Residential Care Apartment Complex (RCAC)	30	6	0	36
Unspecified Substitute Care Setting	6	2	1	9
Other or Not Available from Data	6	4	1	11
<b>TOTAL</b>	<b>379</b>	<b>188</b>	<b>54</b>	<b>621</b>

Appendix A provides information about the living arrangements for individuals relocated under the Community Relocation Initiative by the program under which they were served.

The living arrangements of the 196 individuals diverted from nursing home admission under the Nursing Home Diversion program are summarized below. Many individuals remained in their same living arrangement. Almost half remained in a home or apartment. Over 40% are living in CBRFs while a smaller number are in Residential Care Apartment Complexes or adult family homes.

<b>Living Arrangement for Individuals Diverted from Nursing Homes in SFY 2009</b>		
	Prior Living Arrangement	Living Arrangement on Program
Home or Apartment	113	96
Adult Family Home	4	5
CBRF	62	86
RCAC	11	9
Hospital/Other	6	0
<b>TOTAL</b>	<b>196</b>	<b>196</b>

### **Duration of Relocations**

Of the 567 individuals relocated in SFY 2009 through the Community Relocation Initiative, 30 died of natural causes and 25 returned to a nursing home during the fiscal year. The remaining

individuals continue to live in the community and virtually all continue to receive services through a home and community-based waiver program.

Of the 37 individuals with developmental disabilities who relocated in SFY 2009 to the community under the ICF-MR Restructuring Initiative, 1 died of natural causes. None of the people who relocated from ICFs-MR in SFY 2009 returned to an institutional setting during the year. All of the 17 individuals with developmental disabilities who relocated to the community in SFY 2009 from the State Centers under the CIP 1A program were still living in the community at the end of SFY 2009

### **Costs Under the Medicaid Program**

To determine the net Medicaid cost of the relocation programs, Medicaid costs were calculated for both the period when the person was in an institution and the period when the person was living in the community. The analysis examined the following two components: (a) the institutional or home and community-based waiver costs; and (b) other Medicaid costs, termed MA Card Costs, which include the Medicaid costs for personal care services, therapeutic services, and all other MA services. This provides a comprehensive presentation of the person's Medicaid costs in each setting.

### ***Community Relocation Initiative***

As summarized in the table below, in SFY 2009 the average daily cost in the nursing facility for individuals before they relocated under the Community Relocation Initiative was \$153.47. In contrast, the average daily cost in the community after relocation for these same individuals was \$116.62. Community relocations under the CRI were cost effective, producing an average daily savings of \$36.85, representing a 24% cost reduction.

Preliminary Cost Information - Average Daily Costs for Individuals Relocated in SFY 2009								
Program	#	(1) Facility Costs	(2) Facility Card Costs	(3) Facility Total	(4) Waiver Program Costs	(5) Community Card Costs	(6) Community Total	Average Savings
CRI	567	136.95	16.52	153.47	90.97	25.65	116.62	36.85
CIP II - CRI	330	130.83	19.28	150.11	87.32	35.13	122.45	27.66
Family Care - CRI	183	141.45	12.87	154.32	94.83	11.07	105.90	48.42
PACE/Partnership-CRI	54	159.13	12.97	172.10	106.49	--	106.49	65.61

As shown in the table below, the total MA cost in SFY 2009 of serving the 567 individuals who relocated to the community under the Community Relocation Initiative during the period they lived in their new community settings was \$8.7 million. If instead these individuals had remained in their institutional settings during this time period, their MA cost of services would have been more than \$11.4 million. Due to the difference between institutional and community

costs, the Community Relocation Initiative produced total savings of more than \$2.7 million in SFY 2009.

Estimated Total SFY 2009 Costs of Community Relocation Initiative						
Program	#	(1) Aver. MA Costs in Community	(2) No. of Days	(3) Total MA Costs in Community	(4) Ttl. MA Costs in Facility for same period	(5) Difference Between Facility and Community Costs
FY09 Relocations						
<i>CIP II – CRI</i>	330	122.45	48,087	\$5,888,253	\$ 7,218,199	\$1,329,946
<i>Family Care – CRI</i>	183	105.91	20,196	\$2,138,958	\$ 3,116,795	\$ 977,837
<i>PACE/Partnership-CRI</i>	54	106.49	6,298	\$ 670,674	\$ 1,083,848	\$ 413,174
<b>TOTAL CRI</b>	<b>567</b>		<b>74,581</b>	<b>\$8,697,885</b>	<b>\$11,418,842</b>	<b>\$2,720,957</b>

**Notes**

1. All Medicaid costs are based on paid claims as reported in interChange. Some lag exists in data.
2. CIP II CRI costs are based on claims reported in HSRs. Claims reported for the period from January 1 through June, 30 2009 have not been reconciled. An allowance has been added for county administrative costs.
3. Family Care and PACE/Partnership costs are based on the capitation payment paid to the Managed Care Organization on behalf of the member.

***ICF-MR Restructuring***

The ICF-MR Restructuring Initiative establishes a set amount of funding to be used for the costs of all individuals eligible for the initiative either in institutional or community settings. In SFY 2009, the total ICF-MR Restructuring budget equaled \$95.8 million All Funds. The Department is expected to manage the cost of serving those individuals remaining in institutions and the cost of new community relocations so as to stay within the global ICF-MR Restructuring budget.

In SFY 2009, the average daily MA cost of individuals in an ICF-MR was \$202.78, of which \$191.96 was facility cost and \$10.82 was card costs. The average daily MA cost of serving the individuals in the community after relocation was \$273.99, of which \$217.68 was waiver costs and \$56.31 was card costs. The state MA program fully funds these community costs, with the result that counties do not bear any new costs due to this initiative.

Although the average cost of relocated individuals was higher than their institutional cost, the total expenditures were within the budgeted level, primarily because institutional costs were lower than expected due to deaths. In total, under the ICF-MR Restructuring Initiative in SFY 2009, approximately \$33.1 million All Funds (AF) was spent on waiver costs, \$6.9 million AF for the increased cost of MA card services for relocated individuals in the community, and \$35 million AF for the costs of individuals residing in ICF-MR or nursing home institutions for a total program cost of \$75 million AF. Thus, the cost of the entire ICF-MR program for SFY 2009, \$75 million AF, was within the SFY 09 budgeted level of \$95.8 million AF. Consistent with the Department's practices for administering the overall Medicaid program, the balance of funding in the ICF-MR program area was used to offset funding shortfalls in other parts of the Medicaid program.

### ***CIP 1A Program***

As noted above, individuals with developmental disabilities relocated under the CIP 1A program are funded by the state MA program for their community costs up to \$325 per day. The institutional cost at the state DD Center where they resided was decreased by \$325 per day, making the program cost-neutral.

### ***Nursing Home Diversion Program***

The average daily community cost of individuals served under the nursing home diversion program in SFY 2009 was \$88.22, of which \$50.95 was waiver costs and \$37.27 was card costs. The projected daily MA cost of serving these individuals if they had entered a nursing home is \$126.99, based on the projected average facility cost for non-developmentally disabled nursing home residents in SFY09 and estimated card services for the Community Relocation Initiative prior to relocation.

The estimated cost of the individuals served under the nursing home diversion program in SFY09 is \$2,346,263 AF. The projected cost of serving these individuals in nursing homes, if they had needed to enter a nursing home, during the same time period was \$3.2 million AF.

### **Impact on Health and Safety**

#### ***Home and Community-based Waiver Quality Assurance***

Assuring the health and safety of frail elders and individuals with developmental and physical disabilities is a paramount goal of the Department whether these individuals live in an institution or community settings. All of the individuals relocated under the programs described in this report are participants in one of the Department's Medicaid Home and Community Based Waivers, which includes Family Care, the self-directed IRIS waiver, and the traditional waivers (Community Integration Program and Community Options Program). All of these waivers operate under federally approved plans that include extensive risk assessment and mitigation and quality assurance and improvement protocols intended to ensure health and safety for participants.

All participants have highly individualized support and service plans that promote individual outcomes, informed choice and community participation in addition to addressing health and safety needs. Care management staff are required to have contact with participants at regular intervals, including face to face visits, to ensure that services and supports are being delivered as required and to address new needs that might arise. For persons relocating from institutions, a visit will occur shortly after the move to the community to assess the adequacy of the support and service plan and identify any issues that occurred after the move.

For all participants, on-going assessments are methodically completed and updated. In Family Care, care planning is carried out by an interdisciplinary team, which includes a nurse. Many counties also employ nursing personnel as part of their care management teams under the traditional waivers. When unmet needs are identified, the care plan is modified to address those needs. In addition to waiver services and supports, individuals also receive community health services such as physician and dental visits, hospital care, personal care in their home, and pharmacy.

The Department requires Family Care Managed Care Organizations (MCOs) and counties that administer the traditional waivers to have a system to ensure waiver participants are adequately protected from physical, verbal, and sexual abuse as well as maltreatment, neglect and financial exploitation and violation of their rights under law. The Department also requires MCOs and counties to have an effective response system when incidents of this kind arise and mechanisms for reporting incidents to the Department.

The Department uses state staff or contractors to monitor the extent to which MCOs and county waiver agencies comply with waiver requirements. This oversight also includes paper reviews and on-site visits using a variety of sources such as case records, satisfaction surveys, and visits with program participants.

For the Community Relocation Initiative under the CIP II program, the Department has implemented a targeted follow-up process for persons relocated from nursing homes. The Department asks care managers to administer a questionnaire to persons who relocated from nursing homes at 30 and 90 day intervals after their move. The 90-day questionnaire for individuals relocated under the Community Relocation Initiative and served during SFY 2009 indicates that the health status of relocated individuals is as good, and in many cases better, in their new setting and that health and safety issues are being met. Specifically,

- The functional status remained the same for 32% of participants and improved for 59% of participants after relocating.
- 37% of participants had health and safety issues identified since relocating. County case managers work with the clients to address these issues.

#### *Regulatory Oversight*

The Division of Quality Assurance conducts regular on-site surveys of licensed community residential facilities (3-4 bed Adult Family Homes and Community-Based Residential Facilities) much like it does for ICFs-MR, using state guidelines and standards. Counties are responsible for assuring high quality services and environments for individuals living in smaller settings. Residential and day-service providers also have procedures and practices that maintain each person's safety and health. Because they interact with each person on a constant basis, medical conditions are monitored, social and environmental situations are structured, and individuals with special needs are given sufficient supports.

The Department oversees these programs and service delivery systems by having staff disbursed throughout the state to facilitate and monitor these efforts through several types of activities, including: random unannounced visits, in-depth annual plan review, as well as on-going dialogue with all stakeholders (including consumers and their families/guardians). The Department issues guidelines, and establishes policies and procedures whenever necessary, when gaps are identified or suspected.

#### *Actual or suspected events*

Any actual or suspected event that threatens the health or safety of an individual is investigated and reviewed by each provider and waiver agency. Counties and managed care organizations are

required to report all such instances to state level quality assurance staff or contractors, who, depending on the nature and seriousness of the report, may investigate or involve others (such as police or the judicial system).

All deaths in licensed or certified settings are reported to and scrutinized by a state review committee, that looks for negative trends associated with providers, counties, or the approaches that are used by the service delivery system with the intent of preventing further instances. Concerns are then shared with appropriate entities who are required to make systemic improvements or take corrective actions, which creates a constant cycle of improvement. Instances of abuse or neglect are remedied swiftly. Access to necessary medical services is closely monitored.

### **Involvement of Guardians or Family Members**

Counties are required to prepare a plan for home or community-based care for all individuals residing in ICFs-MR and nursing homes who are at a developmental disability level of care. For ICFs-MRs other than the State Centers, these plans are part of the statutorily required annual court review (known as the Watts review) to determine the most integrated setting appropriate to the person's needs. Counties involve guardians in the preparation of these plans and state law requires that the county provide a copy of the plan to the guardian prior to the Watts review.

When a person is relocated from a State Center or other ICF-MR or nursing home facility, the plan for that individual's care is signed by the guardian indicating his/her acceptance of the plan. Of the 37 persons relocated under the ICF-MR Restructuring Initiative in SFY 2009, guardians all agreed with the plan that was developed. Guardians agreed with the plans of all 17 persons relocated from the State Centers in SFY 2009 under the CIP 1A program.

Most elderly persons and persons with physical disabilities relocated under the Community Relocation Initiative do not have guardians. However, in cases where people do have guardians, the guardians are involved in the efforts to relocate or divert individuals from institutions.

For persons who are competent to make their own decisions, family members are involved to the extent preferred by the individual participant. The Department does not keep a record of family involvement in care planning for individuals who are competent to make their own decisions.

### **Staff turnover**

Appendix B provides Calendar Year 2008 staff turnover rates for Intermediate Care Facilities for the Mentally Retarded and Nursing Facilities. The rates are calculated based on information provided by nursing homes and ICFs-MR in response to the 2008 Annual Staffing Survey. The attachment sorts the facilities by county and identifies the city or town where the facility is located. Staff turnover rates are provided for both full and part time staff for three professions: Registered Nurses (RNs), Licensed Practical Nurses (LPNs), and Nursing Assistants (NAs). The turnover rate is calculated by dividing the new staff hired in 2008 by the number of staff on the payroll on 12/31/08, and multiplying this result by 100.

The 2008 statewide turnover rates are provided in the table below:

<b>Staff Turnover Rates: Calendar Year 2008</b>		
	Nursing Homes	ICF-MRs
Full time RNs	36%	21%
Part time RNs	48%	29%
Full time LPNs	29%	11%
Part time LPNs	61%	39%
Full time NAs	45%	18%
Part time NAs	73%	34%
